

# **STEAM Programme at Cambridge**

# Overview

The STEAM Programme at Cambridge gives ambitious students the extraordinary opportunity to experience Cambridge student life. While the aim is to challenge and inspire you by engaging with Cambridge's world-class reputation for academic rigour and excellence, as a student in the programme you will become part of a diverse and supportive community which combines a commitment to academic excellence with a lively social scene.

# **About Cambridge**

The University of Cambridge is a collegiate research university in Cambridge, United Kingdom. Founded in 1209 and granted a royal charter by Henry III in 1231, Cambridge is the second-oldest university in the English-speaking world and the world's fourth-oldest surviving university, and one of the most prestigious academic institutions in the world. The university grew out of an association of scholars who left the University of Oxford after a dispute with the townspeople. The two English ancient universities share many common features and are often jointly referred to as Oxbridge. In turn, Cambridge-educated John Harvard and other founders would establish Harvard University, inspired by the English model, in the eponymous Cambridge, Massachusetts.

Cambridge is formed from a variety of institutions which include 31 semi-autonomous constituent colleges and over 150 academic departments, faculties and other institutions organised into six schools. All the colleges are self-governing institutions within the university, each controlling its own membership and with its own internal structure and activities. All students are members of a college. The university does not have a main campus, and its colleges and central facilities are scattered throughout the city.

Cambridge University Press, a department of the university, is the oldest university press in the world and currently the second largest university press in the world. Cambridge Assessment, also a department of the university, is one of the world's leading examining bodies and provides assessment to over eight million learners globally every year. The university also operates eight cultural and scientific museums, including the Fitzwilliam Museum, as well as a botanic garden. Cambridge's libraries, of which there are over 100, hold a total of around 16 million books, around nine million of which are in Cambridge University Library, a legal deposit library. The university is closely linked to the development of the high-tech business cluster known as 'Silicon Fen'.

A member of numerous associations and part of the 'golden triangle' of English universities, Cambridge has educated many notable alumni, including eminent mathematicians, scientists, politicians, lawyers, philosophers, writers, actors, monarchs and other heads of state. As of October 2020, 121 Nobel laureates, 11 Fields Medalists, 7 Turing Award winners and 14 British prime ministers have been affiliated with Cambridge as students, alumni, faculty or research staff. University alumni have won 194 Olympic medals.

2022 QS World University Rankings: #3

## **Certificates**

#### **Certificate of Attendance**

All students will be awarded a certificate of attendance upon completion of the programme.

## **Academic Report**

In addition to an attendance certificate, each student will receive an Academic Report.

#### **Reference Letter**

Students with outstanding results in the Programme Project will receive a Reference Letter.

# **Programme Content**

#### Lectures

The programme offers a series of lectures. The range of lectures offered in the science, technology, engineering, the arts, and mathematics reflects the array of academic expertise in Cambridge and has been designed to allow you to work both towards your home University degree requirements and to try something new. Lectures will be academically rigorous and challenging but accessible. The lectures can include, but are not limited to, the following topics:

- STEM Education
- Art and Education
- British Culture and Its Forms
- Globalisation

- Technology and Innovation Management
- Game Theory
- Innovation & Entrepreneurship
- Digital Transformation and Future of Work
- Financial Disruption: AI, Automation, Blockchain
- Public Speaking Skills

## **College Life**

Attending the programme gives students the incredible opportunity to experience living, studying and socialising in a Cambridge College.

#### Meals

Eating together is an important part of Cambridge College life. Students will therefore have lunch in the College. And they will also have the flexibility to explore the many wonderful cafes, restaurants and pubs around Cambridge for dinner.

#### Formal Hall

Students will attend a Formal Hall during the programme. Formal Halls are a Cambridge tradition going back centuries and these three-course meals. It is served in the College's dining hall and preceded by excellent drinks and food.

## **Activities**

Throughout the programme students will have the chance to take part in exciting activities across Cambridge, as well as going on day trips to London, Oxford, Stratford-upon-Avon and Warwickshire.

## In Cambridge

- King's College, University of Cambridge
- Highlights of Cambridge
- The Fitzwilliam Museum
- Cambridge Science Park
- Salsa Dance
- Punting on the River Cam
- Afternoon Tea
- Eagle Pub
- Sports
- Wine Tasting

## London and Oxford

- London Royal Walking Tour
- The British Museum or National Gallery
