STEM at MIT 2024

13 days in July
Boston, USA

Take the Next Step To Advance Your Career

Study cutting-edge technology at one of the world's leading universities while making friends and practicing your communication skills!

13 Days (including arrival and departure)

The course is taught by senior professors and scholars from MIT

In person program

English required. See website for level.

Any high school student can apply

Program Fee
- Includes: MIT Training, Cultural Activities, Visits, Breakfast, Local Transportation, Accommodation and Travel Insurance.
- Excludes: Visa, Round-trip Flight, Lunch, Dinners, and other personal expenses.

Upon Acceptance:
- MIT Program Invitation Letter

Upon completion:
- MIT Certificate of Completion
- MIT Reference Letter (Best Students Only)

Application period: March 1 - May 31

The Program

Small classes using case studies, interactive teaching, and group discussions between teachers and students.

Professors use game development examples to explain the convergence of technology and education. From the introduction of game logic, to pen and paper prototypes, to program learning, and finally playtesting.

About MIT
